

Sea the Future

UCSB's Marine Science Mentorship Program

Sea the Future, UCSB's Marine Science Mentorship Program, is an academic mentorship program that focuses on encouraging students from historically under-represented backgrounds to pursue a career in marine science by providing them with knowledge, skills, and relationships in the marine science field. The program will focus on mentor-led science activities to teach students about different topics in marine science and spark excitement about the ocean. Students will be matched with graduate, faculty, and staff mentors from UCSB based on interest in the mentors' area of work and will meet their mentor for monthly sessions and up to bi-monthly field trips. Applications will be collected by the Benioff Ocean Science Laboratory administrative coordinator, Danielle Turner (danielleturner@ucsb.edu).

Student Information:

Name of Applicant: _____

Email address: _____

Phone number: _____

School name: _____

Gender

- Female
- Male
- Other
- Prefer not to say

Race

- American Indian or Alaskan Native
- Asian
- Native Hawaiian or Other Pacific Islander
- Black or African American
- White
- Other
- Prefer not to say

Ethnicity

- Hispanic or Latino
- Not Hispanic or Latino

Please list any ocean or marine science topics that you are interested in (if any):
